

AARSE PUBLICATION/ PUBLICATION AARSE

Introducing AARSE Publication " Geo-information Technology Applications for Environmental and Resource Management in Africa".

Cover Soft (Pbk)

ISBN: 978-31004-2-4

Cover Price: US\$ 35.00

To obtain a copy contact: aarse@infoweb.abs.net

Contents

Part I Environmental Monitoring and Management

- 1 Potential Application of Satellite Imagery for Environmental Monitoring of Artisanal Gold Miners in Tanzania. *Crispin, Kinabo.*
- 2 Application of Remote Sensing for Food Early Warning over Ethiopia. *Tufa Dinku.*
- 3 Socio-Economic and Biophysical Factors Related to Bushfires in Senegal. *Anne Højmark Andersen, Douglas O. Fuller and Racine Kane*
- 4 Impact of Wildfires on the Vegetation of the National Parks in Northern Botswana, Studied with Support of Remote Sensing and GIS. *Suzanne Serneels, Hubert Gulinck and Annemie Andries*
- 5 The Spatial Manifestation of Enso Warm Phase Events in Southern Africa. *J. Ronald Eastman, Assaf Anyamba and Mahadevan Ramachandran*
- 6 Environmental Hazards and the Use of Satellite Remote Sensing for Sustainable Development. *Herman Th. Verstappen*
- 7 Utilisation Du Sig Dans Le Suivi De La Saison Des Pluies 1995 Au Mali. *D. Z. Diarra*

Part II Vegetation, Forestry and Wildlife Management

- 8 Towards Regional and Global Vegetation Cover Mapping: Application of Low Spatial Resolution Satellite Data in Vegetation Mapping over Fragmented Landscapes. *Martin Shimba, Mshimba.*
- 9 Forest Cover Reconnaissance Mapping Project. *Moses Chakanga, Rolf Bergstrom and Jos, Bonnermayer*
- 10 Habitat Suitability Models for Management of African Wildlife Resources. *Jan de Leeuw and Robert C. Albricht*
- 11 Integration of Remote Sensing and GIS for Management Decision Support in Protected Areas: Evaluating and Monitoring of Wildlife Habitats. *Charles L. Amuyunzu and Bouke C Bijl*
- 12 The Utility of Biological Modelling and GIS in Wildlife Management: A Case Study of some Mammals in Tsavo National Park, Kenya. *Leonard, Omullo*

Part III Landuse/ Landcover Analysis and Management

- 13 The Use of Satellite Imagery and GIS to Monitor Land - Use Change in The Zambezi Valley, Zimbabwe. *Judith Pender and Alan Mills*
- 14 Land use/cover Change Evaluation in Sokokto-Rima Basin of N.W. Nigeria Based on Archival Remote Sensing and GIS Techniques. *Peter O. Adeniyi and Ademola Omojola*
- 15 Geographic Information System for Land Parcel Management. *Y. Jairosi Eitech*
- 16 Remote Sensing Evaluation of Urban Encroachment on the Sakumo Coastal Wetland in the Accra-Tema Metropolitan Area in Ghana. *S. K. Kufogbe and J. K. Amatekpor*
- 17 Land Use and Land Cover Mapping in a Tropical African Environment: Experiences of the Remote Sensing Applications Unit (RSAU). *Sung-Bamaala Donyuo*

Part IV Geological Mapping

- 18 Identifying Suitable Development Potential Terrains Utilising GIS Applications from a Regional Engineering Geological Mapping Programme in South Africa. *D. R. Haskins and L. Croukamp*
- 19 Lineament Analysis of Landsat Thematic Mapper Images - Study of Post-Karoo Fault Patterns in the Hwange Coalfields-Zimbabwe. *M. Chivasa*

Part V Challenges of Space and Geoinformation Technologies in Africa

- 20 Strategic Space and Geoinformation Management: The National Spatial Data Infrastructure (NSDI) Concept. *Paddy Matambanadzo*
- 21 Africa in the Global Future: Challenges of Participation in Space Activities. *Adigun Ade Abiodun*
